

NK Series

TAA Compliant Network Camera

Low Light Technology powered by Infinite Star

The NK Series Network cameras, designed in the U.S. and manufactured in Korea, conform to TAA requirements and are approved by the U.S. Government for procurement and use.

Available Model :

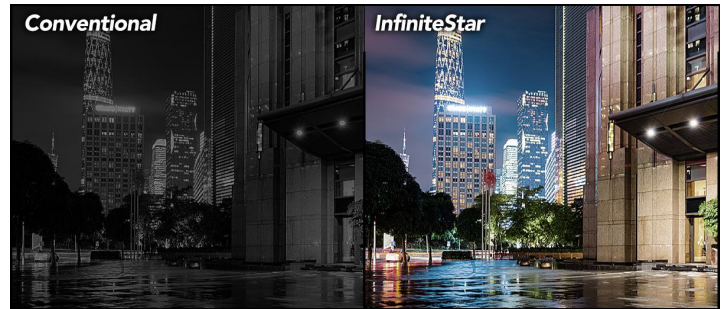

AVC-NKB51F28 / AVC-NKB51M / AVC-NKB81F28 / AVC-NKB81M
AVC-NKD51F28 / AVC-NKD51M / AVC-NKD81F28 / AVC-NKD81M
AVC-NKE51F28 / AVC-NKE51M / AVC-NKE81F28 / AVC-NKE81M
AVC-NKV51F28 / AVC-NKV51M / AVC-NKV81F28 / AVC-NKV81M

Main Features

Face Recognition

Goes beyond detection, identifying and matching faces with known individuals for personalized access or tracking.

InfiniteStar™

Expands visible light spectrum for vibrant colors even in extremely low light, like 0.0001 lux of starlight in darkness.

AI Technology

Face recognition

Human & Vehicle Detection

Intrusion Detection

Tripwire Detection

Stationary Object Detection

Counting

Heat Map

Crowd Density Detection

Queue Length Detection

Loitering Detection

Entrance / Exiting Detection

License Plate Detection
